*** DEPARTMENT ***

You're Invited:

July ABE Departmental Birthday Party

Tuesday, July 13, 2004
Rm 110 Davidson
10:00 a.m.

July Honorees:

Jon Lizaso, Leah Greving, Tom Colvin, Maitri Thakur, Aman Kundra, Albert Bennett

Lost and Found: There was a woman's ring found in the restroom last week. It can be claimed at the main office by proper identification.

Save the Date: Student/Faculty/Staff Fall Social (Ice cream Social) is being planned for Thursday, Sept. 2. It will probably begin at 7 p.m. in the Hoover Hall auditorium and end with the ice cream in the Howe Hall Atrium.

The College of Engineering has a new look for the Intranet. It can accessed at:
<https://intranet.eng.iastate.edu/default.aspx> . For those of you using Outlook, events can be exported from the Intranet right into your Outlook calendar.

I Tech & Ed faculty, staff and students: If any of you have news, announcements, honors, awards, photos, etc. that you would like to share with the rest of the department through this newsletter, please send it to me: Sue Ziegenbusch, 102 Davison Hall, 4-1434, sziegenb@iastate.edu.

Visiting Scholar Lidia Esteve has arrived in Davidson Hall. Lidia comes to us from the University of Lleida, Spain, and will be studying with Amy Kaleita and Matt Helmers this semester.

*** PERSONAL ***

Jeff Lorimor Report:

Hi Everyone,

I talked to Jeff for a few minutes tonight (Friday). He said they fished all day yesterday. All day meaning they fished from 7 in the morning until 7 in the evening. That wouldn't be so bad but home is 4 hours (40 miles) from the area where they fished so they weren't back in port until 11 and still had to have the fish unloaded. I think Jeff mostly watched that process but still had to stay awake for it. He said he was so tired he didn't know if he could get out of bed this am but he did. They caught about 1500 pounds of salmon. No wonder he was tired. He said the boat is a good one and he feels quite safe. There are boats everywhere when they are actually fishing. The weather has been warm, close to 80 and the mosquitoes aren't too bad. He still has a lot to learn but he did drive(?) the boat part of the way home. He is quite sure he won't master the art of net mending and he is still learning the different species of salmon. All in all he is having a very interesting experience.

Until next time,

Peg
