

Name \_\_\_\_\_

**AE 469/569 – Exam 1**  
**(Take-Home)**  
**100 points**

**Problem:**

Write an essay on some technical topic related to soybean oil extraction or corn wet milling.

**Essay rules:**

1. You may select the topic, but discuss it briefly with the instructor before beginning. You may browse files on the table in Rm 217 for ideas.
2. The essay is to be turned in to Kris in Room 213 Davidson by 11:45 am Thursday, March 5, 1998.
3. You are not allowed to consult with anyone in the AE469/569 class. You may consult with any one else.
4. You can use any reference material you want. Be sure it is cited. If the material is on the web, cite it by web address plus title plus author. You should cite at least three references.
5. The essay should be at least two pages (single-spaced).

**Notes:**

- Begin your essay with an introductory paragraph giving background and telling the reader the objective and scope of your essay.
- End your essay with a concluding paragraph.
- Grade will be based on how well you organize your information, how well you describe the topic, and on your composition.
